

PAYROLL / HR 2000

Payroll/HR 2000 is an easy-to-use, full-functioning payroll and human resource application that offers extensive features and functions, including pop-up windows for easy access to user-defined codes and help text. Payroll 2000 is available in our traditional 'Green Screens' environment and also with GUICE, our new Graphical User Interface Client Environment. Our annual software maintenance fees include software feature enhancements, as well as updates for all tax table changes (federal, state, EIC, etc.) and any other legislative changes (W-2's, etc.). We also provide on-site implementation, conversion assistance and training.
